PATENT

REMARKS

In response to a NOTICE OF DRAWING INCONSISTENCY WITH SPECIFICATION, the specification is herein amended. As indicated in the Notice of inconsistency, Figures 3D and 3E are contained in the drawings but not listed in the Brief Description of the Drawings in the specification. The specification is hereby amended to correct this typographical error.

Specially, on page 5, lines 19-20 of the filed application, as originally worded the portion of the Brief Description of the Drawings recites: "Figures 3A through 3C illustrate exemplary implementations of a driver component that translates runtime-level commands to hardware-specific commands..." As amended herein, the term "3C" is changed to "3E". Accordingly, the amended phrase recites: "Figures 3A through 3E illustrate exemplary implementations of a driver component that translates runtime-level commands to hardware-specific commands...".

Conclusion

Entry of the above amendment to the specification is respectfully requested. Please direct any questions regarding this amendment under 37 C.F.R. § 1.312 amendment to the undersigned attorney.
